Short Description

Artist's note: "To me, the most important thing about this painting is the way the other fox is looking at his friend. To that simple gaze I wanted to compress all that happiness, love and gratitude that you can have for another person: how the simple presence of the other can put all your pieces together and make you happier than you ever thought you could be."

The size of the original painting is 41 x 43 cm

Keywords: fantasy, magical, firefoxes, yin and yang, original painting
